

We inspire our customers worldwide with our innovative products and services and create added value for people and nature.

sera is one of the world's leading manufacturers of dosing pumps, dosing systems and diaphragm compressors, which have set international standards and are sold in over 80 countries worldwide. More than 300 employees work daily with inventiveness on the quality and performance of our products.

To reinforce our team, we are looking for an

LEGAL AFFAIRS & FUNDING ADVISOR (M/F/D)

You work in the international environment of a modern industrial company on an international growth course and ensure high-quality and effective legal support for the executive board, the management team and the specialist departments, such as e.g. sales and purchasing, in all areas of the varied international and worldwide business within the **sera Group** in day-to-day business. This includes, among other things, the drafting and review of international contracts, pro-active risk management and consulting for colleagues in international contract negotiations with customers, suppliers and other business partners, in which you will participate if necessary. Your area of responsibility strategically includes the legal conception, validation and creation of company-wide framework conditions, guidelines and regulations on international sales contracts, compliance, IT security, data protection, e-commerce, digitalisation and media marketing, among others. You advise the specialist departments on the development and introduction of new products and services as well as on projects, e.g. in the context of outsourcing, tenders and submissions. You support and coordinate the legal processes as well as IP and patent management with our external lawyers and patent attorneys. Another interesting area of responsibility includes the management of funding and public funding for our innovation projects within the group of companies, be it product innovations in the field of hydrogen and water treatment technologies or regenerative construction projects and much more.

YOUR TASKS

- Checking and drafting contracts and agreements in German and English.
- Advising the management and the specialist departments on all legal topics that arise.
- Reviewing and drafting (international) legal terms and conditions, GTC and other product documents.
- Training and legal consulting of colleagues.
- Cross-border cooperation in an international group of companies.

YOUR PROFILE

- After successfully completing a degree in law with a focus on business and Commercial law and/or corporate law, you have gained two to five years of professional experience in an internationally oriented law firm, consultancy or in a legal department of an international company, ideally with a focus on business and corporate law.
- Expertise in the legal fields of product liability, data protection and industrial property rights and funding is not a must for us, but a desirable can.
- You have already been involved in the review, drafting and negotiation of national and international contracts with suppliers, customers and business partners.
- You are proactive, communicative, inquisitive, ambitious and want to leave your own legal „footprint“ and help shape our international growth.

We inspire our customers worldwide with our innovative products and services and create added value for people and nature.

Sera is one of the world's leading manufacturers of dosing pumps, dosing systems and diaphragm compressors, which have set international standards and are sold in over 80 countries worldwide. More than 250 employees work daily with inventiveness on the quality and performance of our products.

To reinforce our team, we are looking for an

LEGAL AFFAIRS & FUNDING ADVISOR (M/F/D)

- You enjoy legal advice, working out pragmatic solutions and teamwork in interdisciplinary teams in an international environment.
- You can explain legal issues in an understandable way and keep a cool head in challenging discussions and contract negotiations.
- You have a good understanding of technical and economic contexts, ideally already professional experience in the industrial environment of mechanical and plant engineering.
- Furthermore, a sound knowledge of written and spoken legal German and English language skill is indispensable.
- If it is also important to you to take on responsibility in a collegial team, then you have come to the right place.

OUR BENEFITS FOR YOU

- We are big and international enough to offer our employees challenging development opportunities, but small enough to offer individual perspectives.
- Permanent employment contract
- Attractive remuneration along with numerous voluntary social benefits, e.g. pension scheme, bicycle leasing
- Extensive health management and offers with sports courses, massages, etc.
- Creative and media lab rooms and bistros with darts, table football etc.
- Family-friendly corporate culture and good working atmosphere
- Company events during the year, e.g. after-work parties, summer party, end-of-year party
- Appreciative cooperation in a team based on partnership
- Challenging, responsible and varied international field of activity
- Excellent opportunities for further training and future prospects
- Trust-based and flexible working hours

We look forward to receiving your detailed application, including your desired salary and earliest possible start date.
